UGANDA STUDENTS MAKE SOAP

STUDENTS OF ACTION

Deb Luyiima reported that on Tuesday 3/12 Interactors of SSAKU Secondary School produced liquid hand washing soap. Haakon and Siri's recipe is a simple solution that will be distributed to three neighboring primary schools and the clinic to promote hand hygiene. Thanks to Haakon, Siri, and their mom Annelise for funding the project.

Photographs of the production process appear on page 6.

Today's Guests

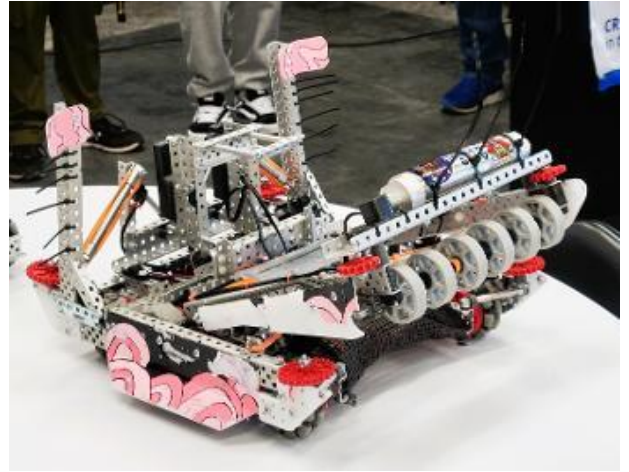

THE ROBOTIC TEAM FROM CLAYTON VALLEY CHARTER HIGH SCHOOL

TODAY'S PRESENTERS

THE STUDENT ROBOTICS TEAM

This morning, we were entertained by the students from the **Clayton Valley Charter High School Robotics Club**, a free, no-membership fee club for high school students. They rely solely on sponsorships and donations to fund the robots parts, registration fees, and travel costs. So far this team has participated in 20 competitions and is preparing for the next one. If you would like to donate to the Robotics Club, please make a payment to the CVCHS Robotics Club. All contributions are a tax-free charitable donation.

ROBOTS/BOTS

The definition of robots and bots is: programmable machines that can automatically execute actions.

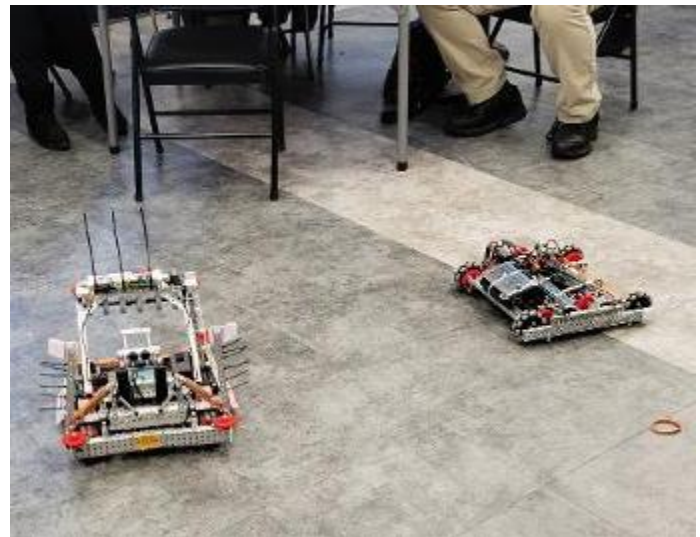

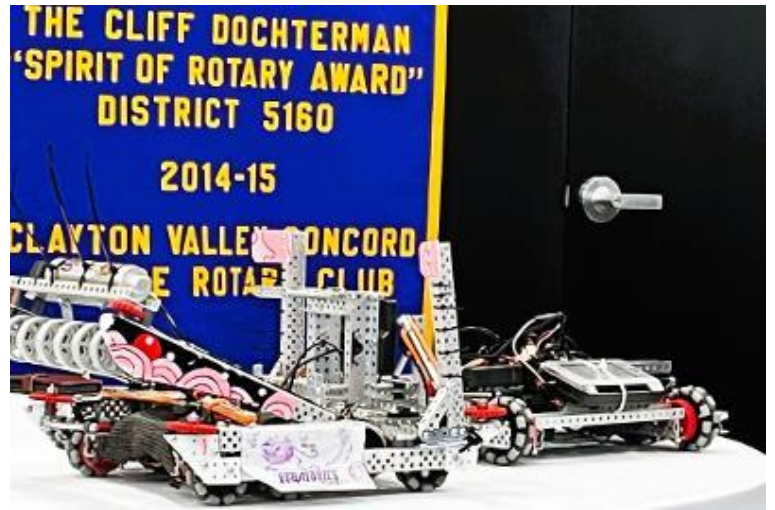

There are those with bodies (robots) and those that are simply programs (bots). Robots are categorized by what they look like, and bots are categorized by what they do. Bots excel at repeatable, logic-based tasks, and there aren't many tasks more repetitive or logical than writing code.

BOOK DONATION

At the end of the presentation, the Team signed the book that Bill Selb selected. It will be donated to the Clayton Public Library.

Every student told their story and the instructors filled in.

CLUBNEWS

Community Services: BOB HUCK

Bob Huck reported that the Home Team will go into action Saturday, March 30, Adopt-A-Street is April 6, White Pony Express meets from 9 to 11 am on April 17, and something is in the works for Earth Day on April 20, 2024.

Fundraisers: JEFF WILSON

Jeff reported the survey results regarding the meeting-time changes. He said: *"The summarized result is that we cannot change our meeting time because we would lose 3 members that would not be able to make any other local Rotary Club meeting times. We would lose 10 and gain 1 if we switched to lunch and we would lose 13 if we went to a dinner meeting. We don't want to exclude anyone from becoming or remaining a member. The main point is that if someone wants a different meeting time, there are other Rotary Clubs that can accommodate them, but if someone wants an early morning meeting time, we are the only option for them in the area. He said: "It was decided that no time change will occur, but we are entertaining the idea of making one of our morning meetings a lunch or "happy hour" meeting a month."*

Two sponsorship letters, for both the Fun Run and the Pancake Breakfast events are available that you can use to reach out to local individuals and companies and pull in sponsors for the events. **Please let Jeff know the companies and individuals you reach out to so he can keep track.** Contact Jeff for the letters. They are also available at the meetings.

Let's make both of these events the most successful events to date!

San Felipe: CANCER WALK

Tina Sweeney wants us to get a group together and make the trip to San Felipe for the Cancer Walk on April 12, 2024. Talk to **Torsten Jacobsen** for details. So far Hugh and Flor are on board.

Uganda (Continued from page 1)

Here are a few photographs of the production process.

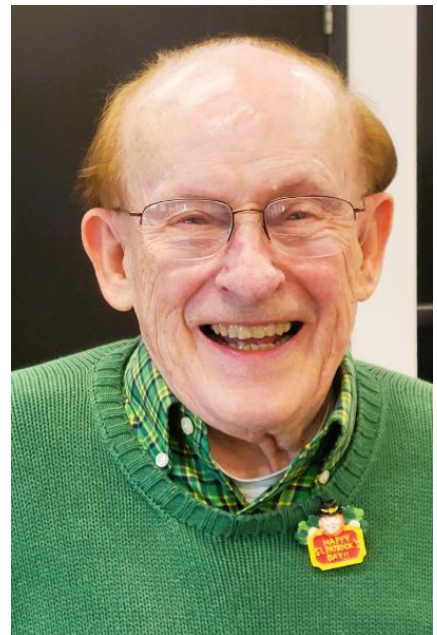

HAPPY BIRTHDAY

Today is **Russ Anderson's 59th birthday**. Russ is our Sergeant -at -Arms, but did you know he is a true Californian and has lived in all three of our major cities, Walnut Creek--where he was born, Clayton, and Concord. He was born into the family car business started by his great-grandfather who had him washing cars before he could drive. Throughout high school he worked in his father's dealership on weekends and during summer vacations. When he graduated from Northwood University in Midland, Michigan with a degree in Automotive Marketing, he and his brother and sister took over management of the 96 year old family dealership, Lehmer's Buick GMC in Concord.
