

# TGUP Project Summary

## Coffee Hulling & Storage Building

### Luwero, Uganda

#### **Project Name:**

Nsawo Coffee Hulling & Storage Building

#### **Project Location:**

Luwero, Uganda

#### **Project Summary:**

Construct a new 50' x 70' building

#### **Project Detail:**

New building will provide coffee hulling and storage for local coffee farmers.

#### **Project Partners:**

Nsawo Community Development Project, Muyenga Rotary Club, NCDP *Save a Girl*™ Sewing Center.

#### **Project Cost:**

\$27,520

#### **Proceeds Benefit:**

NCDP *Save a Girl*™ Sewing Center and local girls.

TGUP's Ugandan partner, Nsawo Community Development Project (NCDP), has recently completed the construction of a new building to process maize. Now, they are seeking funding for another building to process coffee.

The new building will hull raw coffee beans for local coffee farmers. Unhulled beans sell for \$1/KG in local markets. Hulled beans fetch \$2/KG, providing sufficient margins to both operate the facility, and provide funding to the NCDP *Save a Girl*™ sewing center.

The NCDP *Save a Girl*™ center was opened late 2023 to provide menstrual pads to local adolescent girls so they can stay in school. It is one of five SaG sewing centers in the world. It has made and distributed 4,500 kits to date.

NCDP has successfully completed more than 30 projects for TGUP, including classrooms, science labs, latrines, school furniture, water harvesting and storage systems, vocational training facilities, and more.
